### Preliminary Analysis

*The other report indicates some of the initial observations and these will not be repeated here. The principal task associated with this reporting involve the next steps. Two time bases have been established for final data. One is a 1 minute reporting vector and the other is average value between the start and stop sample time for the gas chromatogram.*

#### **Data Collected**

*The campaign data is backed up fully in multiple locations.*

#### **Identify Problems or Issues Encountered and Proposed Solutions or Adjustments**

*Brian Lerner reports on the comparison of the GC-EI-FID with TCEQ operated sites. This will be detailed in the draft report August 3rd.*

#### **Goals and Anticipated Issues for the Succeeding Reporting Period**

*We plan to write a data report to be delivered August 3<sup>rd</sup>.*
